# structural appraisals for commercial buildings

## ARE YOU INSTALLING PV PANELS ?

Are you MCS accredited and require the services of a Structural Engineer?

Our team at Brewsters will handle your project swiftly and with minimum disruption to your client and your sales process.

All manner of commercial buildings including schools, churches, fire stations, hospitals .....

## TAILOR MADE PRODUCTS TO SUIT YOUR BUDGET

Brewsters have tailored our products to specifically meet the requirements of an MCS accredited installer with minimum fuss.

We will be independent yet confidential in our findings until the report is issued.

## HOW IT'S DONE

We will contact the building owner directly and arrange the visit within 3 days of receipt of your instruction.

## COSTS

In order to assist you in tendering for installations we have produced a regionalised fee scale for the production of a 'roof structural appraisal'.

Our fees for a site visit and report start from £270 + VAT for a medium sized commercial building.

If you wish to discuss our services or simply require advice, call us now on 0800 027 5130 to find out how we can help you.

Sample reports available upon request together with our regionalised fee matrix.

Remember, however big or small the project, Brewsters can help.
