desktop structural appraisals of domestic roofs for pv installations

ARE YOU INSTALLING PV PANELS ?

We can undertake a structural appraisal of the roof frame from your measurements to give peace of mind to the investor or homeowner.

Our team at Brewsters will handle your project from our office undertaking an analysis of the roof frame without the need to visit site and hinder the sales process.

TAILOR MADE PRODUCTS TO SUIT YOUR BUDGET

We have tailor made products to specifically suit the needs of an MCS accredited installer.

Our methods are tried and tested and we focus on delivering specialist expertise on demand coupled with quality customer care.

HOW IT'S DONE

Simply issue us with the size of the property and measured dimensions of the roof sections and we will apply the new increased load from the pv system to determine the suitability of the existing roof.

COSTS

Our fee for a desk top appraisal starts from £75.00 + VAT

If you are unsure or simply require advice, call us now on 0800 027 5130 to find out how we can help you.

Sample reports available upon request.

All we need from you has been made into a simple cribsheet which your site surveyors can fill in during the solar energy inspection.

Remember, however big or small the project, Brewsters can help.
