# structural appraisals of domestic roofs for pv installations

## ARE YOU INSTALLING PV PANELS ?

Brewsters can attend site and undertake a structural appraisal of the roof frame to determine the suitability of the existing roof frame to sustain the new increased load from a pv installation.

Our team at Brewsters will handle your project swiftly and with minimum disruption to your client.

## TAILOR MADE PRODUCTS TO SUIT YOUR BUDGET

We have tailored our product to specifically meet the requirements of a MCS accredited installer.

Brewsters will be independent yet confidential in our findings until the report is issued.

## HOW IT'S DONE

We will contact the homeowner directly and arrange the visit within 3 days of receiving an instruction.

## COSTS

In order to assist you in tendering for installations we have produced a regionalised fee scale for the production of a 'roof structural appraisal'.

Our fees for a site visit and report start from £180 + VAT.

If you wish to discuss our services or simply require advice, call us now on 0800 027 5130 to find out how we can help you.

Sample reports available upon request together with our regionalised fixed fee matrix.

Remember, however big or small the project, Brewsters can help.
